

*Wayfair* Chart: States' Economic Nexus Standards/Streamlined Sales and Use Tax Agreement Membership Status  
(updated November 20, 2019)

For purposes of understanding this chart the following terms have the following meanings:

- **Economic nexus:** Nexus is established if an out-of-state seller has sufficient sales in the state within a 12 month period, independent of its relationship with any other entity (e.g. Internet hosting site, affiliate, etc.). No physical presence is required.
- **Click-through nexus:** Nexus is established if an out-of-state retailer has some form of agreement with an entity that has nexus in a state to advertise the retailer's items on their website. States generally require that the referred sales equal a specified threshold of gross receipts prior to nexus being established.
- **Affiliate nexus:** Nexus is established through an affiliated entity that has nexus in the state. State laws in this area vary greatly as to what is an "affiliate" and what type of relationship must exist.

In *Wayfair*, the U.S. Supreme Court not only looked at how many sales were made into the state to determine whether substantial nexus was met (and failed to provide a specific bright-line test), but whether the South Dakota law was prospective, and whether South Dakota was a member of the Streamlined Sales and Use Tax Agreement, which provided a single state tax rate and tax simplification.
